Who we are?

We are a group of young people who established Mladiinfo ČR as a non-governmental, non-profit organization. Our aim is to support development of young people and to increase their independence, bring opportunities in the field of studying, education, volunteering, internships and traveling. Our organization is a part of the Mladiinfo International network and it is based in Brno.

What we do?

We inspire young people to step out of their comfort zones, reach their full potential and become active citizens. Our goal is to increase the awareness of opportunities and possibilities which are available all around the world for young people. On the Mladiinfo.cz webpage we inform about education, jobs, internships, volunteering, travelling and other opportunities.

We help people to develop your competencies of communication, project management and working in a network connecting people from the whole Europe.
