Volunteers are not obligated to have any special qualifications to work with children, but experience in that field will be essential. A volunteer should be ready to work with a bigger group of children for a longer period of time, have an ability to establish positive relationships with children and adults and have basic knowledge of the development and needs of pre-school children.

In addition to all of the above, an absolute advantage is having some interesting hobbies such as doing sports, art, dancing, playing in the theatre, doing circus tricks and playing an instrument or singing. This is due to the fact, that those kinds of classes are very popular and appreciated among our pupils. Having manual and computer skills will be very useful in helping teachers too. Good organizational skills are crucial due to the importance of planning and leading volunteer's own activities and supporting important events.

Being open and ready to share own ESC experience with the local community during different events (picnics, festivals, conferences).
